

3.3 Possible candidates for the future Annual Meetings

- The Board received three very good applications to host the Annual Meeting in 2023. A discussion follows and it is decided that we will respect the “age” of the member in the association.

Proposal for Chicago: The Board will propose that ARMAGANKA Skopje representing the Republic of North Macedonia organises the Annual Meeting in 2023 and Ayb Educational Foundation representing Armenia the Annual Meeting in 2024.

Skype call with Armenia Fr. 14:55 – 15:03: Armenia is informed about the above decision.

- The Board decides to up-date the application form (New: no translator is needed any more, but the Board requires two nights accommodation for their Board Meetings) – AU will do this.

4 Membership (New members / Applicant, Membership issues etc.)

4.1 Applicants

- Towhid Private Educational Institutions representing Afghanistan: AU reports that the numbers look promising (9.365 participants in 2019), they are in regular contact, they charged \$3,- per participant and approximately half of the students could participate for free. They have many plans for advertising, producing materials etc.

Board decision: Towhid Private Educational Institutions representing Afghanistan will be invited to Chicago and is recommended to become a provisional member.

- Research Center of International Mathematical Olympiad in ECNU representing China: MA reports that the competition took place but with only 894 participants.

Board decision: A decision is postponed and the Board wants to see more concrete plans before it can be decided whether they can run the pilot again.

- EduMeter Egypt representing Egypt: RG informs that very little exchange took place, however the competition took place with 2.834 participants.
